**EDITOR'S NOTE:** Quick check-in on the [No Fucks Given Challenge](#): still going strong. Today's post is unrelated, but the spirit is alive

## DAY 4: FUCK THEIR OPINION EXPERIMENT

Today, you're going to **let people think whatever they want—and do nothing to control it.**

### **Your Challenge:**

- ✓ Post an opinion online that makes you a little nervous.
- ✓ Let someone misinterpret you—and don't correct them.
- ✓ Resist explaining yourself.

The more you **let go of controlling how people see you, the freer you become.**

Ok log your results [here](#).

*Now, let's get into it...*

Dear *Permission to be Powerful* reader,

**P. Diddy is one of the most terrifying people on earth.**

**There was Hitler, Saddam , Maybe  
Idi Amin, and then P. Diddy.**

Seriously.

This Cassie video of him brutally kicking her in a hallway while naked — okay there's lots to say about it.

**But it's child's play compared to how evil this man has to be in  
real life.**

I've just been introduced to the idea that there are some people who are so evil that I can't even wrap my mind around how evil they are.

Like... an order of magnitude more evil than your garden variety psychopath.

I think some billionaires certainly fit the bill.

Anyone on Jeffrey Epstein's list...

Which is an alarming list, that we know of so far...

## **Bill Clinton...**

It's an open secret that Bill is likely a rapist. Epstein had a painting of him wearing a dress.

## **Bill Gates...**

His wife literally divorced him over his connection to Epstein. Yikes. I can't wait for when he gets exposed. I believe it's coming.

## **Donald Trump...**

There are scary allegations of Trump and Epstein. Among many other known connections. I think they were like best friends. No joke. They even have the same lawyer.

## **Prince Andrew...**

I just listened to this man's scathing interview from a couple of years ago. Shocking how dumb this royal comes across. Thinking that anybody would believe his bullshit story. This is already a blockbuster list of people who we know had close ties to Epstein...

But there are many more...

## **RFK Jr...**

**Jay Z...**

**Alan Dershowits.**

**Noam Chomsky.**

Like every single one of these men are still loved and respected by millions.

**Yet, we already know enough to  
cancel all of them permanently.**

It's scary how powerful rich people are.

Especially evil motherfuckers like P. Diddy.

Think about how evil you have to be to be P. Diddy...Let's pretend for a moment that all of the allegations are true...

☞ You killed Biggie and Tupac...

☞ You're linked to many suspicious deaths including his ex wife's.

☞ You've assaulted hundreds of people.

**Men, women, children...**

☞ You run trains on people like it's a regular day.

☞ You have a thousand bottles of laced baby oil.

☞ You've been a monstrous lifelong abuser.

☞ You beat your women so bad they go into hiding to recover.

☞ You blew up a guy's car inside his house.

There are jealous ex boyfriends, and there's P. Diddy. Think about how crazy it is to blow up someone's car in their house because you're jealous.

☞ You're such a rapist, your kids are rapists too.

The Feds want to lock you up and throw away the key.

## **There are many rumors that I believe.**

**That P. Diddy groomed Usher when he was 13 and also Justin Beiber when he was the same age.**

His MO is clearly to use his power to make you a star to exploit people. Justin Beiber has been going through a very public mental health crisis, and many people have speculated it's because he's terrified of people finding out the full truth.

## **Like... this guy is off the richter scale evil**

Imagine becoming a billionaire because you killed your main rival and your own artist. And that's the very backbone of your success story?

Everybody has suspected you for decades and you're just out here living your dreams running the Freak Off industrial complex.

That guy had to have had oen hell of a sales pitch when he sold his soul to the devil.

In fact...

**He can't go to hell when he dies because Satan himself is scared he might take over.**

How can so much even fit into one human being?

And how can they make it so far in life being able to commit crimes in the open?

There's many qualities in psychopaths that I find fascinating.

One of them is their superhuman ability to slip through chaos unscathed.

Most people would get their ass handed to them.

**Not Jeffrey Epstein.**

Who got the tiniest slap on the wrist on his first sentence.

**Not Donald Trump.**

93 criminal convictions, and he's officially above the law now.

**Not P. Diddy.**

Some people have that ability to get into all sorts of trouble and still manage to come out fine.

Wouldn't that be a great quality to have?

That's how P. Diddy must have been.

☞ He kills Biggie and Tupac, and all these other people...

☞ He's running a sex crimes industrial complex...

☞ He's dragging half of Hollywood into his depravity...

☞ Yet, he's one of the most successful people in the music business of all time.

☞ Yet, he wins grammies.

☞ Yet, he's on Ellen Degeneres.

☞ Receiving the key to New York city...

☞ Getting Honorary degrees...

P Diddy wasn't a depraved lunatic all by himself.

## **There's rumors about footage with him and other celebrities.**

One indictment named Jay Z as a co-conspirator. Along with an unnamed female celebrity.

Who the fuck was this lady who witnessed them committing this crime? Like... this allegation should be easy to prove because there is at least one witness who could corroborate it.

Indeed, I do think Jay Z is also one of these moguls who could easily find himself locked up some day.

It's an incredible world we're living in.

## **Where dozens of people who we worship and adore are vile monsters behind closed doors.**

How can these two realities coexist?

Truth is stranger than fiction.

One Halloween, P Diddy dressed up as Heath Ledger's joker... And he was low-key more terrifying than Heath.

**I think he dressed up like a maniac, but for one night of his life, Diddy was free to be himself.**

Ashton Kutcher is another one of those celebrities who has all but incriminated himself.

Another beloved actor who is far more loved than he likely deserves to be.

Not when your two best friends are known rapists.

**One leak. One whistleblower. One moment of truth.**

That's all it would take to bring the House of Cards crashing down.

*But will we ever get it?*

Until next time,
